

Pine Island EDA staff and board members are committed to serving and supporting businesses and the community to create a business climate and quality of life second to none!

Business and Community Support:

Business retention and expansion - The EDA understands that Pine Island's existing companies provide the best source for economic stability, growth, and development and to that end we strive to build and maintain strong relationships with them. We work to identify ways to help our companies be successful.

Business recruitment - The EDA works to strengthen the community's economic base through business and development recruitment by attracting commercial businesses which compliment the array of products and services offered to residents. The EDA researches and actively recruits new companies to come to Pine Island.

Business and community advocacy - The mission of the EDA includes working to improve the quality of life enjoyed by Pine Island citizens. The EDA believes that a balanced approach to growth and development in the areas of infrastructure, education, housing, recreational activities and amenities are needed to make Pine Island a better place to live, work, and do business.

Mission of the EDA: *To promote and enhance a community spirit that fosters togetherness and a willingness to improve the quality of life in Pine Island by directing and guiding future economic development.*
